

Walk 8a - Extension to Walk 8

5 km - 3 ml

Path through fields that crosses the main London to Penzance railway line. A short length of road then a drove through West Sedgemoor, the RSPB Nature Reserve.

Alternatively, if you fancy a longer walk, go straight over Bull Place Drove **7** and through two fields and the squeeze stile and bridge and diagonally **R** to the railway line **A**. Cross that very carefully and slightly to the **L**. Cross that field slightly diagonally right (aim slightly to the **R** of a roof and chimney that appear on the skyline) and into the next field through a gateway **B** or over the stile. There are two smallish fishing lakes, go past them and then round to the **R** through a pedestrian gate **C**, turn **L** by a small pond and then shortly **R** and you come out on to the road **D** from Stathe to Langport. Turn **R** and walk till you come to North Drove **E** and turn **R** along there and continue till you eventually reach Pincombe Drove **F**. Turn **R** to Pincombe Bridge **10** and rejoin **Walk 8**
