

Starting with your back to the shop and Royal Oak **1** turn to the right and keep to the left of the school on to Huntham Lane. Walk along past Sturts Farm till you see a Bristol Gate **2** into an orchard on your left, go through that and along to the pedestrian gate at the end. Keeping to the left walk through three fields (gateways can get very muddy) and then climb quite an awkward stile **3** on your left into a field at a higher level - it can be very muddy at the bottom of this stile. Follow the hedge on your right and go over the next stile **4** and along a clear fenced off path through another orchard till you reach Windmill **5**. Turn right and follow the road to the end. Go right at the end **6** and slightly diagonally across to a corner which sticks out and follow along that hedge till a gap. Go over that bridge **7** and across the field with the hedge on your left and over the stile into a field at a lower level **8** - again it can be a bit difficult and dogs need to be aware of barbed wire. Follow alongside Sedgemoor Old Rhyne and over the stile into the next field and across there to the following hedge and follow that up to the right till you reach a stile **9**. Climb over the stile into a narrow field and turn right up the hill keeping alongside the hedge and through the gate at the top **10**. Turn right and follow the track with the hedge on your right turning left at the corner (not through the gateway) and then right continuing to follow the hedge to a Bristol gate **11**. Go through that and slightly diagonally to the bridge over the rhyne and then across to the pedestrian gate back into the first orchard you crossed and walk back to that Bristol gate and into Huntham Lane **2**. Turn right and back to the shop and Royal Oak.

Walk 1

Huntham - Windmill - Sedgemoor - Huntham

Distance 3.7 km (2.3 mls), through lanes and fields (some with stock). Five stiles (two quite high).
