

Starting with your back to the shop and Royal Oak **1**, go right past the school on Willey Road and through the gate on the left beside the school **2**. Follow the path to the end and straight across Huntham Close and down the path directly opposite and into the field. Go almost immediately to your left **3** and along a narrow path between a hedge and a fence to a bridge and stile into the next field. Go straight ahead and then round to the right **4** when you reach the opposite hedge and then over the bridge **5** which is on your left into the next field. Walk diagonally over towards the stile in the hedge - this is the right of way - **6** (or walk round the edge of the field which can be easier) and then follow the field edge round to your left and along to the end **7**. Turn left and down through this field and the next one and the following one coming out into Huntham Lane **8** and go straight ahead - again the gateways can get muddy. Turn left **9** at the first opportunity along past Huntham Farmhouse. Keep on this track and when it divides in to two **10**, take the lower track alongside the orchard and follow it round to the right into a drove - again this can be very muddy and rutty - take care. Follow the track round the field turning left when you reach the opposite hedge **11** - don't go through the gate opposite - keep following that hedge on your right round to the left and then right till you reach a Bristol gate **12**. Go through that and diagonally to your left towards the hedge and over the rhyne then **13** round that towards a pedestrian gate **14**. Walk through that into a well maintained orchard and walk towards the gate straight ahead **15**. Go through the gate on to Huntham Lane and turn right. Keep walking till you get back to the shop and Royal Oak **1**.

Walk 4

North and South of Huntham Lane

A level walk through fields, sometimes containing stock.
Distance 3.3 km (2 mls). Five stiles.
